 - Presentation time will be 30 minutes.
 - Students should bring two copies of the presentations printed one slide per page.
-

ASSIGNMENT TOPIC: DIGITAL STRATEGY SIMULATION

BACKGROUND

This assignment is a practical application of your knowledge gathered in the Diploma in Digital Marketing Program by simulation of an exercise comprising of digital strategy planning and important components of execution.

TASK ONE

This task requires the student to outline the business model of the created actual or hypothetical business and define the products, and suitable audiences.

1.1 Define the business model and products offered.

1.2 Define the personas of target audiences for each product line.

Guideline Note 01

Build a hypothetical or an actual business (the evaluation process does not require to showcase incorporation of the business or any legal documentation), and identify the correct products and audiences for the business. Each business should define a minimum of 3 products.

TASK TWO

This task requires the student to design the owned media experiences for the brand based on the behaviours of the personas identified above.

2.1 Based on the user profiles identified in Task 01, identify a maximum of 4 social media channels with a strong justification.

2.2 Create those social media pages with a minimum of 4 posts excluding the logo and cover photo.

2.3 Design a website structure for the business and a mock-up design.

2.4 Conduct a comprehensive keyword research for the brand and conduct a keyword analysis and select a minimum of two keywords for each page (Brand and Generic) for SEO purposes.

Guideline Note 02:

This task requires the student to develop owned media platforms for the selected business and come up with a keyword optimization plan for the proposed website structure.

TASK THREE

This task requires the student to design a digital marketing plan for the selected brand and set up campaigns.

3.1 Out of the products selected in Task 3, select 2 products, create a comprehensive digital advertising plan covering all relevant digital channels (social media, display, video, search, etc) with the objective of promoting the brand, and 2 products of your choice.

3.2 Set up the proposed ad plan only in 2 channels (eg: Facebook and Google search or Instagram and YouTube ads etc) out of the channels selected in Task 3.1.

Guideline Note 03:

Candidate must develop a fully-fledged digital marketing plan for the awareness of the brand and for the conversion of two products. In the plan, it is mandatory to justify the selected channels by clearly showcasing the relationship between audience behaviours of the selected product's audiences and the proposed plan. Out of the channels selected in 3.1, select 2 channels and set up the proposed ads in draft mode. It is mandatory for the candidate to correctly set up the hierarchy of the campaign and set up product ads and brand awareness ads to the correct target audience and by selecting the correct advertising objectives.

IMPORTANT:

Please refrain from copying and pasting information from the Internet or another source and make sure to reference your work according to the Harvard referencing format.

Word Allocation for each task	
Task	Content Weightage
Task one	10%
Task two	45%
Task three	45%
Total (Word count 3000 – 4000)	100%

Note: Please refer to the given assignment marking scheme for marks allocation.

Instructions for Presentations

Candidate should present the assignment with a combined form of PowerPoint presentation and platform/ad set-up walkthroughs. Each candidate will receive 30 minutes per presentation.
